

# CAPTAIN HANS

**Captain Hans** tells the story of an former astronaut who is assign to teach the space cadets. Although at first he's reluctant to take on the new task but the friendly and fun attitude of his cadets change his mind. Raju the silent one , Jun the curious one and Lee the hyperactive. Their adventure starts when Lee push the take off button that take the four of them to outer space and later crash into an unknown planet. They are not the only one stranded there as there are three aliens who on their way to earth to catch some humans for their leaders collection also crash to the same planet. Balamon , Balimon and Babamon were excited to notice that they don't have to go all the way to earth as there's four human on the planet. Thus the life in the planet turn to a classic tale of cat and mouse where the aliens try to catch the human while the humans try to defend themselves. But the new planet offers so much more than new discovery, unique scenery and new experience for them as it also offers odd and twisted relation between the two parties. They later find out that in order to survive in the planet they must learn to adapt and help each other.
